

HEADSET UPSET

If you're trying to order a complete MK-1697/G headset-microphone, forget it. You're not going to get one. The complete unit is a terminal item.

You can, however, still order repair parts as listed in TM 11-5965-286-23P, and when you order a new CVC helmet it comes equipped with an MK-1697/G.

Here are the sizes and NSNs for complete CVC helmets:

Size	NSN 8470-01-130-
Small	8180
Medium	3794
Large	3795
